Flood Warning (Let's-Read-and-Find-Out Science 2) Katharine Kenah

You are lying in bed listening to the soft sound of rain. It has been coming down for hours. Now something is changing. The rain sounds harder and louder, and there is water running down the road, which looks like a small river. What is happening? You are hearing and seeing the start of a flood. Read and find out about the different kinds of floods, how they start, and how to stay safe. With colorful illustrations from Amy Schimler-Safford and engaging text from Katharine Kenah, *Flood Warning* is a fascinating look into a dangerous natural disaster.

Featuring rich vocabulary bolded throughout the text, this book also includes a Find-Out-More section with instructions on how to make a rain gauge and an infographic about saving water at home. Both the text and the artwork were vetted for accuracy by Dr. Christopher Kenah, Geologist, Division of Drinking and Ground Waters, Ohio Environmental Protection Agency.

This is a Level 2 Let's-Read-and-Find-Out Science title, which means the book explores more challenging concepts for children in the primary grades and supports the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.
