## Peacebuilding, Memory and Reconciliation: Bridging Top-Down and Bottom-Up Approaches (Studies in Conflict, Development and Peacebuilding)

This book aims to bridge the gap between what are generally referred to as 'top-down' and 'bottom-up' approaches to peacebuilding.

After the experience of a physical and psychological trauma, the period of individual healing and recovery is intertwined with political and social reconciliation. The prospects for social and political reconciliation are undermined when a 'top-down' approach is favoured over the 'bottom-up strategy' - the prioritization of structural stability over societal well-being.

*Peacebuilding, Memory and Reconciliation* explores the inextricable link between psychological recovery and socio-political reconciliation, and the political issues that dominate this relationship. Through an examination of the construction of social narratives about or for peace, the text offers a new perspective on peacebuilding, which challenges and questions the very nature of the dichotomy between 'top-down' and 'bottom-up' approaches.

This book will be of much interest to students of peacebuilding, peace and conflict studies, social psychology, political science and IR in general.
