**Link up, connect, or create a network-with no wires attached!**

With such an amazing abundance of electronic devices available in our daily lives, wouldn't it be nice to eliminate getting wrangled by all those wires? With this guide by your side, a team of technical authors walks you through creating a network in your home or office-without the expense and hassle of stringing cable or paying a network administrator.

Eight self-contained minibooks answer your questions about wireless devices and wireless networks and address everything from hardware security to wireless hobbies and GPS. Clear, step-by-step instructions show you how to link your TV, computers, PDAs, laptops, TiVo, and sound systems to your wireless network.

- Discover how to configure networks and create a completely wireless environment
- Incorporate various hardware into your wireless network, such as notebook computers, handheld devices, sound systems, and printers
- Tackle common security issues and best troubleshooting practices
- Learn all the basics of wireless computing and how to make it work for you

With this book, it's easier than ever to to create an office or home network on a Windows platform. Don't be a bird on a wire-become a part of a wireless world!
