Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series)

Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series)

Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series)

Exploring fundamental research questions, **Conceptual Structures in Practice** takes you through the basic yet nontrivial task of establishing conceptual relations as the foundation for research in knowledge representation and knowledge mining. It includes contributions from leading researchers in both the conceptual graph and formal concept analysis (FCA) communities.

This accessible, self-contained book begins by providing the formal background in FCA and conceptual graphs. It then describes various software tools for analysis and computation, including the ToscanaJ suite. Written by the original visionaries of the field, the next section discusses the history and future directions of conceptual structures. The final chapters explore prominent application areas in computer science, including text analysis, web semantics, and intelligent systems.

An unprecedented, state-of-the-art overview from innovators in the field, this volume discusses how FCA and conceptual graphs can be used in many computer science areas. It serves as a benchmark of research on conceptual structures, inspiring further exploration in this discipline.

From reader reviews:

Nathan Kelly:

Throughout other case, little men and women like to read book Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series). You can choose the best book if you want reading a book. Providing we know about how is important any book Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series). You can add expertise and of course you can around the world by way of a book. Absolutely right, due to the fact from book you can learn everything! From your country until finally foreign or abroad you will be known. About simple thing until wonderful thing you can know that. In this era, we can easily open a book or searching by internet product. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's examine.

Katherine Humphrey:

Book is definitely written, printed, or descriptive for everything. You can realize everything you want by a book. Book has a different type. To be sure that book is important point to bring us around the world. Next to that you can your reading ability was fluently. A guide Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series) will make you to always be smarter. You can feel a lot more confidence if you can know about everything. But some of you think that open or reading some sort of book make you bored. It is not make you fun. Why they might be thought like that? Have you in search of best book or acceptable book with you?

Mary Haskell:

Playing with family in a very park, coming to see the ocean world or hanging out with friends is thing that usually you might have done when you have spare time, after that why you don't try factor that really opposite from that. Just one activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series), you may enjoy both. It is very good combination right, you still want to miss it? What kind of hang type is it? Oh come on its mind hangout fellas. What? Still don't understand it, oh come on its named reading friends.

Judy Newberry:

Are you kind of busy person, only have 10 or 15 minute in your day to upgrading your mind talent or thinking skill possibly analytical thinking? Then you are having problem with the book than can satisfy your short space of time to read it because this time you only find book that need more time to be examine. Conceptual Structures in Practice (Chapman & Hall/CRC Studies in Informatics Series) can be your answer mainly because it can be read by you actually who have those short time problems.
