The Single European Market and Beyond: A Study of the Wider Implications of the Single European Act

The Single European Market and Beyond: A Study of the Wider Implications of the Single European Act

Since the Single Europe Act (1986), attention has largely focused on the creation of a single European market and the much hyped date '1992'. This book examines what is actually entailed by the single market and looks at the other issues and implications of the Single Europe Act. It falls into four parts and considers the economic, fiscal, social and political dimensions of the processes of European unification.
