Desde lobos hacia perros (Spanish Edition) Jaume Camps Rabadá

Descubrir de dónde venimos, quiénes somos y qué nos espera en el más allá es un tema constante en todas las civilizaciones humanas y es la base principal de nuestras creencias religiosas. Excepto en lo del "más allá", también nos interesa conocer de dónde proceden y quiénes son los que han sido y son nuestros mejores y más fieles amigos y compañeros: los perros. Los perros se originaron por la elección humana y descienden directamente del lobo, *Canis lupus*, exclusivamente de la variedad gris, que desde siempre coexistió en unos mismos hábitats con el *Homo sapiens*. En su evolución no han intervenido otros cánidos y los cambios graduales de adaptación al medio por la selección natural de Darwin, son sustituidos, en la domesticación, por las necesidades humanas. Esta elección ha hecho que generación tras generación las diferencias entre ellos se hayan ido haciendo cada vez más grandes y más rápidas. El autor nos propone un apasionante viaje a través del tiempo en compañía de nuestro común amigo el perro. Estamos seguros de que ese viaje será placentero y a la vez educativo, y nos colocará ante el espejo de lo que somos y hacia dónde nos dirigimos ambos
