Has the ecumenical movement lost its way? Does the prophetic voice of the churches gathered together still influence our societies? "Beyond Idealism" answers these questions and others, pointing to a new orientation in the field of ecumenical social thought at a time of crisis in the ecumenical movement. It calls ecumenically minded persons to give a relevant witness to the faith of their religious communities in the midst of the challenges of globalization. Featuring an international contingent of authors, the volume calls for a "renewal of the mind" among those who are interested in social ethics. Emphasizing a move toward hopeful realism, "Beyond Idealism" suggests ecumenical action instead of market-driven answers to social problems, producing a new role for churches as prophetic messengers in society.
