Frege's Logic Danielle MACBETH

For many philosophers, modern philosophy begins in 1879 with the publication of Frege's *Begriffsschrift*, in which Frege presents the first truly modern logic in his symbolic language, *Begriffsschrift*, or concept-script. Macbeth's book, the first full-length study of this language, offers a highly original new reading of Frege's logic based directly on Frege's own two-dimensional notation and his various writings about logic.
