Roof Tiling and Slating: A Practical Guide Kevin Taylor

If you have never fixed a roof tile or slate before but have wondered how to go about repairing or replacing them, then this is the book for you. Many of the technical books about roof tiling and slating are rather vague and conveniently ignore some of the trickier problems and how they can be resolved. In *Roof Tiling and Slating*, the author rejects this cautious approach. Kevin Taylor uses both his extensive knowledge of the trade and his ability to explain the subject in easily understandable terms, to demonstrate how to carry out the work safely to a high standard, using tried and tested methods. Topics covered: considers the various types of tiles, slates and roofing materials on the market and their uses, how to estimate the required quantities, and where to buy them; discusses how to check and assess a roof and how to identify and rectify problems; describes how to efficiently 'set out' roofs from small, simple jobs to larger and more complicated projects, thus making the work quicker, simpler and neater; examines the correct and the incorrect ways of installing background materials such as underlay, battens and valley liners; explains how to install interlocking tiles, plain tiles, and artificial and natural slates; covers both modern and traditional methods and skills, including cutting materials by hand without the assistance of power tools; provides invaluable guidance on repairs and maintenance issues, and highlights common mistakes and how they can be avoided.

From reader reviews:

Jeanne Gonzales:

What do you in relation to book? It is not important together with you? Or just adding material when you really need something to explain what your own problem? How about your spare time? Or are you busy particular person? If you don't have spare time to accomplish others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Every individual has many questions above. They need to answer that question simply because just their can do this. It said that about reserve. Book is familiar in each person. Yes, it is suitable. Because start from on jardín de infancia until university need this particular Roof Tiling and Slating: A Practical Guide to read.

Carolyn Bailey:

The reason? Because this Roof Tiling and Slating: A Practical Guide is an unordinary book that the inside of the reserve waiting for you to snap the idea but latter it will distress you with the secret the item inside. Reading this book adjacent to it was fantastic author who also write the book in such awesome way makes the content within easier to understand, entertaining method but still convey the meaning totally. So , it is good for you because of not hesitating having this anymore or you going to regret it. This excellent book will give you a lot of rewards than the other book have got such as help improving your skill and your critical thinking method. So , still want to hesitate having that book? If I were being you I will go to the e-book store hurriedly.

William Wright:

That e-book can make you to feel relax. That book Roof Tiling and Slating: A Practical Guide was multi-colored and of course has pictures on there. As we know that book Roof Tiling and Slating: A Practical Guide has many kinds or category. Start from kids until teens. For example Naruto or Detective Conan you can read and think you are the character on there. Therefore not at all of book tend to be make you bored, any it offers you feel happy, fun and loosen up. Try to choose the best book for you and try to like reading that.

Julie Gibson:

As a university student exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to there but nothing reading really. Any students feel that reading is not important, boring and also can't see colorful images on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Roof Tiling and Slating: A Practical Guide can make you sense more interested to read.
