LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series)

Anh-Vu H. Pham, Morgan J. Chen, Kunia Aihara

A comprehensive overview of electrical design using Liquid Crystal Polymer (LCP), giving you everything you need to know to get up-to-speed on the subject. This text describes successful design and development techniques for high-performance microwave and millimeter-wave packages and modules in an organic platform. These were specifically developed to make the most of LCP's inert, hermetic, low-cost, high-frequency (DC to 110+ GHz) properties. First-hand accounts show you how to avoid various pitfalls during design and development. You'll get extensive electrical design details in areas of broadband circuit design for low-loss interconnects, couplers, splitters/combiners, baluns, phase shifters, time-delay units (TDU), power amplifier (PA) modules, receiver modules, phased-array antennas, flexible electronics, surface mounted packages, Microelectromechanical Systems (MEMS) and reliability. Ideal for engineers in the fields of RF, microwave, signal integrity, advanced packaging, material science, optical and biomedical engineering.

From reader reviews:

Jenna Springer:

The book LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series) make one feel enjoy for your spare time. You may use to make your capable more increase. Book can for being your best friend when you getting tension or having big problem with your subject. If you can make looking at a book LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series) to get your habit, you can get more advantages, like add your current capable, increase your knowledge about a few or all subjects. You can know everything if you like open and read a book LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series). Kinds of book are a lot of. It means that, science publication or encyclopedia or others. So , how do you think about this publication?

Adrienne Helms:

Your reading 6th sense will not betray you actually, why because this LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series) publication written by well-known writer who knows well how to make book which might be understand by anyone who have read the book. Written with good manner for you, leaking every ideas and creating skill only for eliminate your own personal hunger then you still hesitation LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series) as good book not simply by the cover but also by the content. This is one reserve that can break don't determine book by its cover, so do you still needing another sixth sense to pick this kind of!? Oh come on your reading sixth sense already said so why you have to listening to yet another sixth sense.

Patrick Leon:

E-book is one of source of knowledge. We can add our expertise from it. Not only for students but also native or citizen want book to know the change information of year for you to year. As we know those textbooks have many advantages. Beside we add our knowledge, can bring us to around the world. From the book LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series) we can acquire more advantage. Don't that you be creative people? Being creative person must choose to read a book. Just simply choose the best book that appropriate with your aim. Don't always be doubt to change your life with this book LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series). You can more inviting than now.

Raymond Crandall:

Some people said that they feel fed up when they reading a e-book. They are directly felt the idea when they get a half areas of the book. You can choose often the book LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series) to make your personal reading is interesting. Your own

skill of reading ability is developing when you including reading. Try to choose simple book to make you enjoy to see it and mingle the opinion about book and examining especially. It is to be 1st opinion for you to like to open a book and learn it. Beside that the publication LCP for Microwave Packages and Modules (The Cambridge RF and Microwave Engineering Series) can to be a newly purchased friend when you're really feel alone and confuse using what must you're doing of their time.
