Looking Down Steve Jenkins

If you were an astronaut traveling far out in space and you looked at the earth, what would you see? A small ball in the huge black universe. That's where these pictures begin. Then they move closer and closer to the earth, each view revealing new details. Until finally . . . See for yourself.

In this wordless picture book with stunning cut-paper illustrations, Steve Jenkins masterfully depicts the many levels of the universe, from the farthest reaches of space to the most familiar corner of your backyard.
