The Survival Group Handbook (formerly known as MAGS: The People Part of Prepping, see here for additional book reviews: <http://bit.ly/magsreviews>) is the first and most comprehensive book ever written on the subject of survival with others. It is designed to walk you through all the steps required to safely and securely find, and work with other people just like you who realize that going it alone in a dark world is not an option. This guide is the instruction manual and reference textbook for the solo survivor, family or national organization regardless of size or mission. By employing the hard learned lessons carefully researched in cooperation with many active groups, and applying sociology, history, law and threat analysis, the survivor will understand what makes a group work, how to build one from scratch, how to fix one that has become dysfunctional and where to put your group in a hurry. If you want to put a razor's edge on your team, understand how to effectively lead people, increase participation, correct poor group dynamics, and be able to successfully operate under a multitude of conditions, this book holds all the keys to your success.
