## Antisemitism and Xenophobia in Germany after Unification

Since unification, Germany has experienced profound changes, including the reawakening of xenophobic hate crime, anti-Semitic incidents, and racist violence. This book presents the most recent research conducted by a team of American and German experts in political science, sociology, mass communication, and history. They analyze the degree of antisemitism, xenophobia, remembrance, and Holocaust knowledge in German public opinion; the groups and organizations that propagate prejudice and hate; and the German, American, and Jewish perceptions of, and reactions to, these phenomena.
