## **Para uma ontologia do ser social II (Portuguese Edition)** György Lukács

Obra de síntese, Para uma ontologia do ser social é a mais complexa sistematização filosófica de seu tempo. Considerada o ápice intelectual do filósofo húngaro György Lukács, um dos maiores expoentes do pensamento humanista do século XX, a Ontologia (como se tornou conhecida), concebida no curso dos anos 1960, significa o salto da ontologia intuída à ontologia filosoficamente fundamentada nas categorias mais essenciais que regem a vida do ser social, bem como nas estruturas da vida cotidiana dos homens.

O segundo volume de um dos projetos editoriais centrais da Boitempo, acalentado por mais de uma década, finalmente chega às livrarias brasileiras, com prefácio de Guido Oldrini, orelha de Ricardo Antunes e tradução direta do alemão por Nélio Schneider, com colaboração de Ivo Tonet e Ronaldo Vielmi Fortes. O texto contou também com uma minuciosa revisão da tradução por Nélio Schneider e revisão técnica de Ronaldo Vielmi Fortes.
