Policy Simulations in the European Union (Routledge New International Studies in Economic Modelling)

Policy Simulations in the European Union (Routledge New International Studies in Economic Modelling)

The papers in this much-needed collection employ Applied General Equilibrium methodology to address a wide variety of concerns within the European Union. Contributors examine five main policy areas:

- * international market integration
- * policy simulations with alternative treatments of factor markets
- * policies for carbon dioxide abatement
- * competitiveness and convergence
- * VAT and income tax reform.
