Cibertrónica. Aprendiendo con tecnologías de la inteligencia en la web semántica (Spanish Edition)

Enrique Ruiz Velasco Sánchez

INSPIRAR PARA LA INNOVACIÓN es la intención de este ebook. En efecto, se trata de mostrar en forma detallada cómo el usuario puede construir e integrar de manera natural, lúdica, sistémica, holista, ecológica, transformadora e innovadora una base de conocimientos de ciencia y tecnología, que le permita dar un gran salto cognitivo y creador. Esto se vuelve factible gracias al aprendizaje cibertrónico. Este aprendizaje tiene como esencia la integración racional e inteligente de tecnologías, métodos, desarrollos o técnicas útiles para abordar la experiencia significativa, constructivista, construccionista y conectivista que se realiza en y desde el ciberespacio. Así pues, mediante un modelo de enseñanza-aprendizaje centrado en las tecnologías de la inteligencia, se da cuenta de la experiencia cibertrónica en la web didáctica y de las redes cibertrónicas en la web semántica. Lo anterior, acrisolado, a través de la experimentación con la robótica pedagógica móvil o celular ¿Será esta propuesta un buen principio para apoyar el desarrollo de una cultura tecnológica-digital-global?
