Murray N. Rothbard

The Irrepressible Rothbard : The Rothbard-Rockwell Report Essays of Murray N. Rothbard Murray N. Rothbard

Summing up the work of libertarian economist and historian Murray N. Rothbard (1926-1995) and noting its stunning range, philosopher David Gordon once wondered "if there are really three, four, or five geniuses writing under his name." These lively essays display one of those geniuses: Rothbard the journalist, cultural critic, political observer, and movement organizer. Even more remarkable, they represent just a fraction of what he wrote in his spare time, for just one publication, and in just the last few years of his life.

His articles combined libertarian anti-government economics, decentralist local patriotism, anti-war isolation, and a reactionary cultural outlook that saw government as the key to the loss of the Old Republic. He defended land-rights groups against environmentalists, citizen militias against gun grabbers, isolationists against imperialists, paleoconservatives against neoconservatives, populists against party regulars, anti-New World Order conspiracy theorists against the establishment, nationalists against internationalists, states righters against libertarian centralists, the Christian right against its own leadership, and much more.

These essays show forth not only Rothbard's intellectual vigor, but the complete joy with which he embraced life, and how his extreme optimism made even the most severe setbacks tolerable. He experienced great disappointments and great successes, but through it all he was heroic, undaunted, and irrepressible. In this, as in everything else, Murray Rothbard is the model for those who long for liberty, and work for it.
