Herbert I. London

**The Transformational Decade: Snapshots of a Decade from 9/11 to the Obama Presidency** Herbert I. London

*The Transformational Decade* shows the transformation that took place in American life from the attack on the World Trade Center to the emergence of the Obama presidency. It is not a strict history, but rather snapshots of a decade that has fundamentally altered perceptions of the United States.

In some respects, this book is modeled after Frederick Lewis Allen's *Only Yesterday* and *Since Yesterday*, acclaimed books that sought to capture the spirit of the 1920s and '30s. London sees the period from 2001 to 2008 as "post yesterday," a period that broke with the past, challenged the essence of the free market, and contested America's role on the world stage.

In an effort to limn these snapshots from recent history, London has written several "decade" books: *The Overheated Decade*, *The Counterfeit Decade*, and *The Decade of Denial*. This book, *The Transformational Decade*, differs in that it represents a separation from the past. London illuminates a decade that he considers to be a new and more frightful period than any in recent American history.
