Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials

Reveals Innovative Research on BN Nanotubes and Nanosheets

Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials is the first book devoted to nanotubes and nanosheets made of boron nitride (BN). It shows how the properties of BN nanotubes and nanosheets have led to many exciting applications where carbon (C) materials cannot be used, including high-temperature metal-ceramic-based composites, substrates for graphene and other semiconducting layers in electronic devices, reusable absorbents for oil and other contaminants, dry solid lubricants, and biomedical applications.

Researchers working on various aspects of BN nanomaterials share their knowledge and current work on the applications of BN nanotubes and nanosheets. They describe numerous applications, including BN nanotube-reinforced metal-ceramic-based composites, field emission, desalination, cleanup of oil spillages, biosensing and bioimaging, drug delivery, biomedical applications, and energy storage using BCN and TiO₂ nanorods and nanosheets as electrode materials. The book also covers C and other nanotubes and nanosheets to give readers a broad view of the latest nanomaterials research.

From reader reviews:

James Rose:

Reading can called imagination hangout, why? Because if you find yourself reading a book mainly book entitled Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials your head will drift away trough every dimension, wandering in most aspect that maybe not known for but surely can become your mind friends. Imaging every single word written in a reserve then become one application form conclusion and explanation this maybe you never get ahead of. The Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials giving you a different experience more than blown away the mind but also giving you useful information for your better life on this era. So now let us demonstrate the relaxing pattern here is your body and mind is going to be pleased when you are finished reading through it, like winning a game. Do you want to try this extraordinary spending spare time activity?

James Jackson:

Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials can be one of your nice books that are good idea. We all recommend that straight away because this publication has good vocabulary which could increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The article writer giving his/her effort to set every word into delight arrangement in writing Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials nevertheless doesn't forget the main place, giving the reader the hottest as well as based confirm resource info that maybe you can be considered one of it. This great information may drawn you into new stage of crucial considering.

Samantha Flowers:

Within this era which is the greater person or who has ability in doing something more are more valuable than other. Do you want to become one among it? It is just simple way to have that. What you are related is just spending your time very little but quite enough to experience a look at some books. Among the books in the top list in your reading list is actually Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials. This book that is qualified as The Hungry Inclines can get you closer in turning into precious person. By looking right up and review this e-book you can get many advantages.

James Melendez:

Reading a e-book make you to get more knowledge from this. You can take knowledge and information originating from a book. Book is published or printed or outlined from each source this filled update of news. In this modern era like at this point, many ways to get information are available for you actually. From media social just like newspaper, magazines, science e-book, encyclopedia, reference book, story and comic. You

can add your knowledge by that book. Are you ready to spend your spare time to open your book? Or just looking for the Nanotubes and Nanosheets: Functionalization and Applications of Boron Nitride and Other Nanomaterials when you required it?
