Identification and Control of Sheet and Film Processes (Advances in Industrial Control)

Andrew P. Featherstone, Jeremy G. VanAntwerp, Richard D. Braatz

Identification and Control of Sheet and Film Processes (Advances in Industrial Control) Andrew P. Featherstone, Jeremy G. VanAntwerp, Richard D. Braatz

Sheet and film processes include coating, papermaking, metal rolling, and polymer film extrusion. Products produced by these processes include paper, bumper stickers, plastic bags, windshield safety glass, and sheet metal. The total capitalization of industries that rely on these processes is well over \$ 500 billion worldwide. These processes are notorious for being difficult to control.

The goal of this book is to present the theoretical background and practical techniques for the identification and control of sheet and film processes. It is explained why many existing industrial control systems perform poorly for sheet and film processes. Identification and control algorithms are described and illustrated which provide consistent and reliable product quality. These algorithms include an experimental design technique that ensures that informative data are collected during input-output experimentation, model identification techniques that produce a process model and an estimate of its accuracy, and control techniques that take into account actuator constraints as well as robustness to model uncertainties.

The algorithms covered in this book are truly the state of the art. Variations on some of the algorithms have been implemented on industrial sheet and film processes. Other algorithms are in various stages of implementation. All of the algorithms have been applied to realistic simulation models constructed from industrial plant data; many of these studies are included in this book.

From reader reviews:

Florence Lentz:

This book titled Identification and Control of Sheet and Film Processes (Advances in Industrial Control) to be one of several books this best seller in this year, honestly, that is because when you read this book you can get a lot of benefit in it. You will easily to buy this kind of book in the book store or you can order it by way of online. The publisher on this book sells the e-book too. It makes you easier to read this book, since you can read this book in your Smartphone. So there is no reason to your account to past this publication from your list.

Mark Shanks:

Reading a book being new life style in this season; every people loves to study a book. When you read a book you can get a lots of benefit. When you read ebooks, you can improve your knowledge, because book has a lot of information on it. The information that you will get depend on what kinds of book that you have read. If you want to get information about your research, you can read education books, but if you act like you want to entertain yourself read a fiction books, such us novel, comics, as well as soon. The Identification and Control of Sheet and Film Processes (Advances in Industrial Control) provide you with a new experience in reading a book.

Marina Tijerina:

Don't be worry in case you are afraid that this book may filled the space in your house, you will get it in e-book approach, more simple and reachable. This particular Identification and Control of Sheet and Film Processes (Advances in Industrial Control) can give you a lot of close friends because by you checking out this one book you have issue that they don't and make you actually more like an interesting person. This specific book can be one of one step for you to get success. This reserve offer you information that perhaps your friend doesn't learn, by knowing more than various other make you to be great individuals. So , why hesitate? We should have Identification and Control of Sheet and Film Processes (Advances in Industrial Control).

Griselda Gonzalez:

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information from a book. Book is created or printed or outlined from each source which filled update of news. Within this modern era like right now, many ways to get information are available for a person. From media social like newspaper, magazines, science guide, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just seeking the Identification and Control of Sheet and Film Processes (Advances in Industrial Control) when you needed it?
