A.J. Kox, Jean Eisenstaedt

The Universe of General Relativity: 11 (Einstein Studies) A.J. Kox, Jean Eisenstaedt

This volume from the Einstein Studies Series is based largely on papers presented at the Sixth International Conference on the History of General Relativity, held in Amsterdam on June 26-29, 2002. These contributions from notable experts offer both new and historical insights on gravitation, general relativity, cosmology, unified field theory, and the history of science. Topics discussed include the prehistory of special relativity, early attempts at a relativistic theory of gravitation, the beginnings of general relativity, the problem of motion in the context of relativity, conservation laws, the axiomatization of relativity, classical and contemporary cosmology, gravitation and electromagnetism, quantum gravity, and relativity as seen through the eyes of the public and renowned relativists. Contributors: K. Brading; G. Gale; H.F.M. Goenner; J. Goldberg; S. Katzir; D. Kennefick; H. Kragh; C. Lehner; U. Majer; J. Mattingly; E.T. Newman; J.D. Norton; J. Renn; R. Rynasiewicz; J.M. Sánchez-Ron; T. Sauer; C. Smeenk; J. Stachel; M. Wazeck; and D. Wünsch.

From reader reviews:

Jess Bolan:

Hey guys, do you really want to find a new book to see? Maybe the book with the title The Universe of General Relativity: 11 (Einstein Studies) suitable to you? The book was written by well-known writer in this era. The book entitled The Universe of General Relativity: 11 (Einstein Studies) is the main of several books that will everyone read now. That book was inspired a lot of people in the world. When you read this reserve you will enter the new dimension that you ever know just before. The author explained their thought in the simple way, so all of people can easily to understand the core of this book. This book will give you a great deal of information about this world now. So you can see the represented of the world with this book.

Christopher Crow:

Spent a free time to be fun activity to try and do! A lot of people spent their leisure time with their family, or their friends. Usually they carrying out activity like watching television, planning to beach, or picnic from the park. They actually doing same task every week. Do you feel it? Do you wish to something different to fill your free time/ holiday? Maybe reading a book could be option to fill your no cost time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to consider look for book, maybe the book entitled The Universe of General Relativity: 11 (Einstein Studies) can be great book to read. Maybe it may be best activity to you.

Jennifer Wadsworth:

Reading can called brain hangout, why? Because if you are reading a book particularly book entitled The Universe of General Relativity: 11 (Einstein Studies) your brain will drift away through every dimension, wandering in every single aspect that maybe unknown for but surely will end up your mind friends. Imaging each word written in a e-book then become one application form conclusion and explanation which maybe you never get previous to. The The Universe of General Relativity: 11 (Einstein Studies) giving you yet another experience more than blown away the mind but also giving you useful info for your better life in this era. So now let us show you the relaxing pattern is your body and mind will likely be pleased when you are finished reading through it, like winning a sport. Do you want to try this extraordinary wasting spare time activity?

Richard Starkes:

Reading a book make you to get more knowledge as a result. You can take knowledge and information from your book. Book is composed or printed or illustrated from each source that filled update of news. In this particular modern era like currently, many ways to get information are available for a person. From media social just like newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just looking for the The Universe of General Relativity: 11 (Einstein Studies) when you essential it?
