Yifei Yuan

LTE-Advanced relay technology and standardization provides a timely reference work for relay technology with the finalizing of LTE Release 10 specifications. LTE-Advanced is quickly becoming the global standard for 4G cellular communications. The relay technology, as one of the key features in LTE-Advanced, helps not only to improve the system coverage and capacity, but also to save the costs of laying wireline backhaul. As a leading researcher in the field of LTE-Advanced standards, the author provides an in-depth description of LTE-A relay technology, and explains in detail the standard specification and design principles.

Readers from both academic and industrial fields can find sections of interest to them: Sections 2 & 4 could benefit researchers in academia and those who are engaged in exploratory work, while Sections 3 & 4 are more useful to engineers.

Dr. Yifei Yuan is the Technical Director at the Standards Department of ZTE Inc.

The first thing that you'll ask may be what kinds of reserve that you should read. If you want to consider look for book, may be the reserve untitled LTE-Advanced Relay Technology and Standardization (Signals and Communication Technology) can be excellent book to read. May be it might be best activity to you.

Cecil Atkins:

Reading can called head hangout, why? Because if you are reading a book particularly book entitled LTE-Advanced Relay Technology and Standardization (Signals and Communication Technology) the mind will drift away trough every dimension, wandering in every single aspect that maybe not known for but surely might be your mind friends. Imaging every word written in a publication then become one type conclusion and explanation that maybe you never get just before. The LTE-Advanced Relay Technology and Standardization (Signals and Communication Technology) giving you one more experience more than blown away your thoughts but also giving you useful data for your better life in this particular era. So now let us explain to you the relaxing pattern this is your body and mind will likely be pleased when you are finished studying it, like winning a game. Do you want to try this extraordinary shelling out spare time activity?
