Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science)

From the Preface:

This festschrift is devoted to recognize the career of a man who not only witnessed the growth of operations research from its inception, but also contributed significantly to this growth. Dr. Salah E. Elmaghraby received his doctorate degree from Cornell University in 1958, and since then, his scholarly contributions have enriched the fields of production planning and scheduling and project scheduling. This collection of papers is contributed in his honor by his students, colleagues, and acquaintances. It offers a tribute to the inspiration received from his work, and from his guidance and advice over the years, and recognizes the legacy of his many contributions.

Dr. Elmaghraby is a pioneer in the area of project scheduling (in particular, project planning and control through network models, for which he coined the term 'activity networks'.) In his initial work in this area, he developed an algebra based on signal flow graphs and semi-Markov processes for analyzing generalized activity networks involving activities with probabilistic durations. This work led to the development of what was later known as the Graphical Evaluation and Review Technique (GERT), and GERT simulation models. He has made fundamental contributions in determining criticality indices for activities, in developing methodologies for project compression and time/cost analysis, and in the use of stochastic and chance-constrained programming and Petri Nets for the analysis of activity networks.

This volume brings together fourteen contributions, which can be viewed under the following three main themes: operations research and its application in production planning; project scheduling, and production scheduling, inspired by, and in many cases based on, Dr. Elmaghraby's work in these areas. The first five chapters are devoted to the first theme, followed by four chapters each devoted to the other two, respectively. An additional chapter is devoted to the vulnerability of multimodal freight systems.

From reader reviews:

Marjorie Batchelder:

Nowadays reading books be than want or need but also get a life style. This reading behavior give you lot of advantages. The huge benefits you got of course the knowledge the actual information inside the book that improve your knowledge and information. The information you get based on what kind of publication you read, if you want send more knowledge just go with schooling books but if you want really feel happy read one having theme for entertaining like comic or novel. Often the Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science) is kind of publication which is giving the reader capricious experience.

Terrance Allen:

This Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science) are usually reliable for you who want to be described as a successful person, why. The reason why of this Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science) can be on the list of great books you must have is usually giving you more than just simple reading through food but feed you actually with information that might be will shock your preceding knowledge. This book is usually handy, you can bring it everywhere you go and whenever your conditions both in e-book and printed ones. Beside that this Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science) giving you an enormous of experience for example rich vocabulary, giving you trial run of critical thinking that we all know it useful in your day action. So , let's have it appreciate reading.

Owen Bourne:

Your reading 6th sense will not betray an individual, why because this Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science) e-book written by well-known writer who knows well how to make book that may be understand by anyone who also read the book. Written inside good manner for you, still dripping wet every ideas and creating skill only for eliminate your own hunger then you still hesitation Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science) as good book but not only by the cover but also by the content. This is one e-book that can break don't determine book by its cover, so do you still needing an additional sixth sense to pick that!? Oh come on your looking at sixth sense already told you so why you have to listening to one more sixth sense.

Donnie Ned:

What is your hobby? Have you heard in which question when you got learners? We believe that that concern was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. And you know that little person similar to reading or as looking at become their hobby. You should know that reading is very important in addition to book as to be the point. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You see good news or update in relation to something by book. Different categories of books that can you choose to adopt be your object. One of them is this Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby: 200 (International Series in Operations Research & Management Science).
