Nietzsche, Biology and Metaphor

Gregory Moore

Nietzsche, Biology and Metaphor Gregory Moore

Nietzsche, Biology and Metaphor explores the German philosopher's response to the intellectual debates sparked by the publication of Charles Darwin's *The Origin of Species*. By examining the abundance of biological metaphors in Nietzsche's writings, Gregory Moore questions his recent reputation as an eminently subversive and (post-) modern thinker, and shows how deeply Nietzsche was immersed in late nineteenth-century debates on evolution, degeneration and race. The first part of the book provides a detailed study and interpretation of Nietzsche's much disputed relationship to Darwinism. Uniquely, Moore also considers the importance of Nietzsche's evolutionary perspective for the development of his moral and aesthetic philosophy. The second part analyzes key themes of Nietzsche's cultural criticism - his attack on the Judaeo-Christian tradition, his diagnosis of the nihilistic crisis afflicting modernity and his anti-Wagnerian polemics - against the background of fin-de-siècle fears about the imminent biological collapse of Western civilization.

From reader reviews:

Dorothy Shuler:

Information is provisions for people to get better life, information these days can get by anyone from everywhere. The information can be a information or any news even restricted. What people must be consider while those information which is within the former life are challenging be find than now could be taking seriously which one is suitable to believe or which one often the resource are convinced. If you receive the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All of those possibilities will not happen within you if you take Nietzsche, Biology and Metaphor as your daily resource information.

Robert Cobb:

Is it you actually who having spare time after that spend it whole day by simply watching television programs or just laying on the bed? Do you need something new? This Nietzsche, Biology and Metaphor can be the solution, oh how comes? A fresh book you know. You are consequently out of date, spending your extra time by reading in this new era is common not a geek activity. So what these textbooks have than the others?

Hilary Rangel:

Do you like reading a book? Confuse to looking for your selected book? Or your book ended up being rare? Why so many query for the book? But any people feel that they enjoy intended for reading. Some people likes looking at, not only science book but also novel and Nietzsche, Biology and Metaphor or others sources were given expertise for you. After you know how the good a book, you feel wish to read more and more. Science reserve was created for teacher or students especially. Those ebooks are helping them to put their knowledge. In some other case, beside science e-book, any other book likes Nietzsche, Biology and Metaphor to make your spare time a lot more colorful. Many types of book like this one.

Janice Smith:

As a scholar exactly feel bored in order to reading. If their teacher requested them to go to the library or even make summary for some reserve, they are complained. Just minor students that has reading's soul or real their interest. They just do what the professor want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that studying is not important, boring in addition to can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Nietzsche, Biology and Metaphor can make you experience more interested to read.
