## **Practical Tortoise Raising: and other philosophical essays** Simon Blackburn

Simon Blackburn presents a selection of his philosophical essays from 1995 to 2010. He offers engaging and illuminating discussions of various problems which arise when such familiar notions as representation, truth, reason, and assertion are applied in the sphere of practical thought. It is puzzling how our thinking gets to grip with such things as values and norms. Blackburn explores how we can try to understand what we say in terms of what we are doing when we say

it. He investigates how propositions interact with linguistic expressions whose primary function is identified in terms of actions performed in expressing commitments with them, when those commitments are thought of in practical rather than descriptive terms. He broadens his investigation from semantic questions to wider issues of pluralism, pragmatism, philosophy of mind, and the nature of practical reasoning.
